Forecast for Saturday 26 Feb 2022

Weather: A dry start day, with cloud largely above summit level. This will, thin and break through the morning to largely sunny skies by the afternoon. Staying windy throughout with a notable wind chill. Dry during the evening, with largely clear skies.

Chance of cloud-free hill tops above 600m: 40%, becoming greater than 90% in the afternoon.

Low cloud and visibility: A few patches of cloud will limit views on some summits above 700m during the morning. This soon lifting, with all tops likely clearing into the afternoon. This will allow good to very good views from all levels.

Forecast for Sunday 27 Feb 2022

Weather: Dry and bright. Sunny spells are expected, however likely a little cloudier than Saturday. This includes some cloud on modest eastern slopes around dawn, along with some summit cloud potentially thickening through the afternoon. Still windy, with a chance of further isolated gales over the summits. Feeling cold in the wind.

Maximum wind: South 25mph gusting 35-45mph.

Chance of cloud-free hill tops 600m: 70%, best chances late morning.

Low cloud and visibility: Patches of cloud possibly obscuring some tops around 500m in the morning, before lifting. Further patches of cloud returning to obscure tops above 800m during the afternoon, lowering to 500m in places by the evening. Away from cloud good views likely with some distant peaks visible.

Temperature: **Valleys:** Plus 3 Celsius rising to Plus 9 Celsius
At 600m: Plus 1 Celsius rising to Plus 4 Celsius
Freezing level: 700m rising to above the summits.
